Subject: RE: Effluent Guidelines Program Plan

Thanks Bill. We held a permit hearing 2 weeks ago where we received numerous comments that the Cook Inlet exemption in the Coastal Oil & Gas ELG should be revisited and done away with. I am trying to craft a message letting the commentors know that there is a process. So stay tuned!

Cindy:

We have not yet published the Preliminary 2012 Effluent Guidelines Plan, but will do so within the next month to take public comment and input.

Bill,
Can I pass this to you for responding?

Subject: Effluent Guidelines Program Plan

Did EPA propose an Effluent Guidelines Program Plan during 2012? When is the next one planned?

Thanks.
